CAREER OBJECTIVE

Aspiring AIML engineer with strong interest in programming, problem- solving, and emerging technologies. Seeking an opportunity to apply my skills, gain industry experience, and contribute to organizational growth while continuously learning and developing as a technology professional.

EDUCATION

B.Tech – AI & Machine Learning 85% Annamacharya Institute Of Technology & Sciences	2023 – 2027
Intermediate (12th) 71.2% Sri Shirdi Sai Junior College , Rajampet	2022 – 2023
SSC (10th) 98% Sri Shanthiniketan High School, Pullampet	2020 – 2021

TECHNICAL SKILLS

Languages: Python (Primary), Java (Fundamentals), HTML5, CSS3

Core Concepts: OOP, Data Structures & Algorithms, DBMS

Database: SQL / MySQL – schema design, normalisation, query optimisation

Tools & Libraries: Git / GitHub, scikit- learn, NumPy, Pandas

Practices: Agile, Testing & Debugging, Code Review, Technical Documentation, Analytical Thinking

PROJECTS

AI- Powered Voting System | Python, ML, SQL, REST API

- Engineered a full- stack AI voting platform with ML- based anomaly detection to flag fraudulent votes in real time, improving data integrity; modelled a normalised MySQL schema with query optimisation for a live results dashboard.

Women Entrepreneurship Platform | HTML5, CSS3, JavaScript, React

- Developed a digital platform that empowers women entrepreneurs by providing networking, mentorship, and business growth opportunities.

INTERSHIPS

AI/ML using Python Internship | Technotran

2026

- Developed and evaluated ML models using Python, scikit- learn, NumPy, Pandas across the full model lifecycle; version- controlled all code via Git/GitHub with clean technical documentation.

WORKSHOPS

Entrepreneurship & Innovation Workshop | Wadhwani Foundation - Ignite Program 2025

- Practised iterative prototyping and Agile delivery in cross- functional teams; developed stakeholder communication and presentation skills through a startup simulation environment.
